Important ESL Classes

ESL classes are very important for international student. They can help students improve their English, and also can help student learn some Canadian culture. They are not only the way to communicate with others, but also the way to get use to a new environment.

ESL classes help us to get success in the future study. No matter you will attend academic course or MBA course they will bring you lots of help. This is the first semester I attend ESL classes. I find that they bring me lots of new things that I do not know before. Before I studying ESL, I have no idea how to write a formal essay, how to organize my ideas, how to use the quotation, and how to paraphrase. After I taking these courses I know all of them. Now I am good at using them. These classes not only improve my writing skill, but also improve my reading skill and speaking skill. We read different kinds of short stories, and also do some lecture studies. From the short stories I learn lots of Canadian culture. From the lectures I increase my critical thinking.

After I finishing my ESL classes I will go to academic course. I am confident that I can success in my academic study because I am prepared. I have enough experience to write a good essay or research paper, to present something in front of everyone, and

to understand concepts properly. I like my ESL classes which I increase my knowledge, improve my English, study my Canadian culture, and meet my new friends. ESL classes are very helpful for all the international students. They help us achieve our future goals.
