Keeping my passion in Hospitality Industry, I started my career six years ago in the year 2003 from beautiful country Singapore. With the dreams to grow and travel around the globe, I headed to Singapore from my home country Nepal to study Hospitality Management. During my education at Singapore International Hotel and Tourism College (SHATEC), I had opportunities to learn new skills, language and culture.

Being my first abroad country, Singapore has definitely provided me the foundation needed for every individual to grow and move forward. Singapore has been a special country in different aspects and will remain the same all my life.

With these knowledge and skills, once again I have moved to a new place to follow my dream. Currently I am pursuing my Hospitality Degree at **Vancouver Island University** (VIU), Nanaimo, British Columbia. Vancouver Island University is beautifully located at the foothills of Nanaimo, the harbour city that makes my study most peaceful and enjoyable closer to nature. Every outdoors facilities such as hiking, rafting, canoeing, biking etc: is available in this beautiful town. If you love nature, you will love Nanaimo.

After a hustle and bustle of Singapore, VIU has been the perfect place for me to complete my Degree. What I most like about VIU is that the faculty members who are very approachable and friendly. This has eliminated me to overcome the culture shock and communicate fearlessly with the faculty members and my colleague. Moreover, I am enjoying company of my diverse classmates and this has given every individual in a team to highlight our varied talents.

In terms of my studies, Hospitality Industry has now become one of the largest industries in British Columbia that has high demand of future students. It is exciting when you know that you are at the right place to acquire the knowledge and skills. Most exciting is the small class setting that has helped me to communicate and interact with my professors more conveniently and frequently.

I believe that I am in the right place to enjoy life, gain valuable experience and obtain my Degree.

Final thoughts, *"Invest on your process, not the outcome"*.
