Name: Nan (Roger) Zhu
Programs: ESL & Tourism Management (Degree)

Dear friends,

My name is Nan Zhu from Jiangsu, China. Presently, I am in my fourth year of formal studies towards a Bachelor of Tourism and Recreation Management. It was delightful being asked to write you a letter and introduce my amazing university and the Canada's best tourism and recreation program I am enrolling right now at Malaspina University-College.

Malaspina is a beautiful, fast-growing and dynamic university. Its newly renovated and expanded library and the Center for International Education are absolutely first-class and enjoyed by all students. The beautiful and tranquil Tamagawa and Okayama Gardens are the popular places for students socializing, reading books, or simply relaxing and enjoying the beauty of nature. My favourite place at Malaspina would be the Gymnasium where I can learn hip-hop dance, play basketball, train my body - just to name a few. The two cafeterias, the Velvet Underground student pub, and the student residences provide the students with delicious food, comfortable accommodation and various entertainments beyond expectation. Malaspina also has a rich cultural background. Every year, there are a variety of activities and events held at Malaspina, such as Multicultural Week, Lunar New Year Celebration, Japanese festival, etc. I have been at Malaspina for four year. As time goes by, my pride and love to Malaspina grow deeper.

My study experience in the Tourism and Recreation program at Malaspina has truly been a remarkable one. The program has a top-notch faculty in North America. The professors encourage in-class discussion, challenge our potentials, and foster academic successes. Their lectures enlighten our thoughts, broaden our vision, stimulate our passion, and lead us to examine the tourism industry from various angles. Through the program, I have also learned to understand myself a lot better—my values, abilities, and knowledge. This memorable learning experience will definitely change my life view in a profound way.

In the end, I would sincerely invite you to come to Malaspina exploring my university and letting my instructors' passionate lectures and sharp insights strike your soul. After you studying here, I am sure that you will be excited to tell your friends about Malaspina as I am now.

Sincerely yours, Nan (Roger) Zhu
