

Video Editing FAQ

1. How do I create a new account?

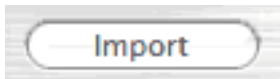

- Your video project will be created on this station. You will not be able to switch rooms once you have begun your project. Log in using your existing Malaspina Discovery account; a new local video editing account with the same username and password will be created on the computer.

2. How do I import from videotape (analogue or digital)?

- Make sure all the VCRs [VIDEO 1-4] and TV are turned on
- Video Switcher **Port A** should be set to **VIDEO 1** (the computer)
- Video Switcher **Port B** should be set to the appropriate VCR (**VIDEO 2** [digital8], **VIDEO 3** [miniDV] or **VIDEO 4** [VHS])
- Place your video tape in the appropriate VCR
- On the computer, in iMovie, switch to camera/capture mode:

- Click the **IMPORT** button:

3. How do I output to videotape (analogue or digital)?

- Make sure all the VCRs [VIDEO 1-4] and TV are turned on
- Video Switcher **Port A** should be set to **VIDEO 1** (the computer)
- Video Switcher **Port B** should be set to the appropriate VCR (**VIDEO 2** [digital8 or VHS] or **VIDEO 3** [miniDV])
- Put your blank tape into the appropriate VCR and press the record button
- On the computer, in iMovie click the home key on the keyboard then the **PLAY** button:

4. What do I do if iMovie crashes?

- Press the APPLE, ALT and ESC keys at the same time
- Select iMovie from the menu that appears and click FORCE QUIT
- You may need to reboot the computer by clicking on the Apple logo (top left hand of the monitor) and select RESTART
