

Science & Technology Programs

Resource Management Officer Technology

2-year Diploma Program

Fee Category: I

The Program

This program is designed to prepare students for careers related to the protection and management of Canada's fisheries, wildlife, and parks resources. The program is supported by an Advisory Committee made up of management and enforcement representatives from the Federal Department of Fisheries and Oceans, Provincial Ministry of Environment, BC Parks, Parks Canada, Environment Canada, and from resource user groups. Students are required to participate in a 2-week practicum at an off-campus location in the Fall semester of the second year. Students are also encouraged to seek employment with a resource management and protection agency, or in work related to natural resource enhancement or monitoring, in the summer between first and second year.

RMOT students are assisting various natural resource law enforcement agencies in monitoring illegal activities within the central Vancouver Island area. These patrols allow students first-hand experience in actual field and communication skills required to monitor and report illegal activities. All these activities are closely monitored with appropriate levels of training and coaching from both RMOT instructors and resource officers.

Note: Agencies accepting students on practica may require a criminal record check.

A free information session is usually held in January. Check with the Advising Centre for more details, 250-740-6410, or visit viu.ca/infosessions.

Career Opportunities

Graduates have found employment as fishery officers with the Federal Department of Fisheries and Oceans, as conservation officers with the Conservation Officer Service of the B.C. Ministry of Environment, or as parks officers with provincial and federal ministries. Graduates also work in habitat assessment or monitoring positions, in resource consulting firms, or in fish or wildlife technician positions.

Resource Management Officer Technology diploma program graduates interested in further studies can apply to the Bachelor of Natural Resource Protection degree offered at Vancouver Island University. Please note however that students must achieve a minimum grade point average of 4.0 (C+) in the RMOT diploma program to be eligible to apply to the degree program.

Admission Requirements

- General admission requirements apply.
- English 12 with min. "C" grade, or equivalent.
- Principles of Math 11 with min. "C" grade, or Applications of Math 11 with min. "C+" grade, or

equivalent.

- Biology 11 with min. "C" grade, or equivalent.
- Two letters of reference.
- Resume.
- A personal letter indicating reasons for applying.
- Interview.

Recommendations for Admission

- Completion of the B.C. Ministry of Environment's C.O.R.E. program.
- Biology 12.
- Chemistry 11.
- Math 12.
- Hands-on computer experience, including skills in MS Windows.

Notes on Admission

- Preference may be given to those candidates with prerequisites completed before the interview.
- Good health is essential, as this program includes a standard of physical fitness.
- Criminal record check may be required by agencies that employ graduates as Peace Officers.
- Consideration will be given to mature students without grade 12; however, they must complete the prerequisites or equivalents before applying.
- Prior to graduation, students are required to complete Occupational Level I First Aid, and Transportation Endorsement, in accordance with Worker's Compensation Board requirements.
- Enrolment in this program is limited. Students who meet or exceed the minimum admission requirements may not necessarily be admitted to the program.

Start Date and Application Deadline

The program starts in September, and applications are accepted anytime between November 15 and March 31. Applications received after March 31 are considered late and will be processed as space permits.

Special Expenses

In addition to tuition fees, books will cost approximately \$600 per year, and general equipment in the form of rain gear, boots and waders will cost about \$300.

Travel and accommodation expenses for off-campus practica and course assignments are the responsibility of the students. Expenses for field trips are approximately \$500. Fee for Occupational Level I First Aid and Transportation Endorsement is approximately \$140. An electrofishing course is also available to students at an approximate cost of \$75. Other important certificates, such as the Canadian Coast Guard Pleasure Craft Operator Card (PCOC), the Restricted Operator's Card for Marine VHF Radios, and Swiftwater Rescue (3-day course), may be required at a cost of approximately \$500.

All fees and other costs are subject to change without prior notice.

Grading Policy

Grades for individual courses are given in the manner described under the Grading Policy of this Calendar. The program has minimum standards as follows.

- A minimum "C" standing (60%) is required in all RMOT-designated courses.
- No more than 3 "C-" grades can be accumulated in non-RMOT (service) courses over the 2-year diploma program.
- Students who fail to achieve the above standard in the first year must repeat the required courses before being admitted into the second year of the program.
- All "D" and "F" grades must be upgraded before the student can proceed from first to second year, or graduate from the program.
- Students who need to upgrade a course may be allowed in the course the next time it is offered, providing there is space.
- The Practicum course (RMOT 271) will automatically be assigned an "F" if the student misses more than one session at the field station, without notifying the program Chair in advance. An "F" in this course will result in suspension from the program.
- Students who have attained less than the required "C" standing in RMOT designated courses as a result of extenuating circumstances, may be permitted to retake specific aspects of a course. In such cases, grades will only be elevated to a maximum of a "C" standing. Application of this clause is subject to review by the program Chair and affected course instructors.
- Students have a maximum of 3 years in which to complete the program. Students who do not attain satisfactory grades for all courses in the program within the consecutive 3-year period will be suspended and will not be accepted the following year. They may, however, reapply after one year.
- Students must complete all program course requirements to the above standards and have an overall GPA of at least 3 ("C") in order to be eligible for graduation.

Program Outline

YEAR 1	Credits
RMOT 151 (Small Motors)	3
RMOT 191 (Project in B.C. Resources I)	3
RMOT 192 (Project in B.C. Resources II)	3
RMOT 194 (Resource Acts & Regulations I)	3
RMOT 200 (B.C. Fisheries)	3
RMOT 201 (B.C. Wildlife)	3
RMOT 202 (Introduction to Parks and Protected Areas)	3
RMOT 205 (Field Skills)	2
BIOL 121 (Introductory Zoology)	4
ENGL 115 (University Writing and Research)	3
FISH 211 (Life History and Management of Salmonids)	3
MATH 181 (Intro to Statistics I)	3
Total Credits	36

YEAR 2	Credits
RMOT 206 (Habitat Management)	3
RMOT 251 (Resource Management Seminars)	2
RMOT 271 (Field Practicum)	2
RMOT 272 (Fitness, Self Defense, Small Firearms Safety and Practice)	2
RMOT 291 (Project in B.C Resources III)	3
RMOT 292 (Project in B.C. Resources IV)	3
RMOT 294 (Legal and Investigative Procedures I)	3
RMOT 295 (Legal and Investigative Procedures II)	3
RMOT 296 (Court and Administrative Procedures)	3
RMOT 297 (Wildlife - Human Conflicts)	3
GEOG 226 (Introductory Spatial Analysis for the Environmental Sciences)	3
FISH 207 (Invertebrate Identification & Biology)	3
FRST 256 (Forest Ecosystems and Hydrology)	3
Total Credits	36
