Graduate Diploma in Gerontology: Active Aging

Credential:

Graduate Diploma

Program Length:

16 Months

The Program

The Graduate Diploma in Gerontology: Active Aging takes an interdisciplinary approach to understanding the physical, social, cognitive and spiritual needs of older adults. The diploma offers current practitioners in a variety of fields the perspectives, knowledge and skills that they need to understand the diverse and evolving needs of older adults and to apply these to their practice experiences. The perspectives and experiences of older adults in community and the Aboriginal Elders associated with Vancouver Island University are incorporated throughout the program.

The program consists of 30 credits delivered over 4 semesters. Students may enroll on a full-time basis (9 credits per semester) or with a reduced load and flexible pathways. Students may choose, for example to take 2, rather than 3 courses for each semester, spreading the program over 6-7 semesters rather than 4.

Each course begins with a weekend institute, located at the Centre for Healthy Aging in Parksville, consisting of two full days of face-to-face interaction with faculty and classmates, and with community members and experts. The institute will be followed by online learning through VIU Learn for 6 consecutive weeks. A new course begins once every 4 weeks with a weekend institute.

Program Outline

Year 1

Fall Semester	Credits
GERO 500 - (Psycho-Social Perspectives on Aging)	3
GERO 502 - (Social Policy on Aging)	3

Completion Requirements

Graduation requires the successful completion of 30 credits including all required courses, with a minimum CGPA of "C".

Admission Requirements

To be admitted into the program, students must hold a baccalaureate degree from a recognized university in any discipline, and meet the following admission criteria: A minimum average of "B" calculated upon the last 60 credits attempted of the undergraduate degree.

Notes on Admission

Students who meet or exceed the minimum admission requirements may not necessarily be admitted to the program.

Transfer from other Institutions

Applicants may apply for possible transfer credits from other accredited graduate programs on a course-by-course basis.

Career Opportunities

Gerontology is one of the growth areas of the 21st century due to population aging in Canada and internationally. The number of individuals over the age of 65 will double in the next 25 years creating opportunities in a variety of different sectors. This includes health care, social services, recreation, leisure and tourism, education, business, housing, community development and planning.

Start Date and Application Deadline

The program starts in January 2017, and applications for admission are accepted anytime between November 15 and March 31. Applications received after March 31 are considered late and will be processed as space permits.
