Education Programs

Bachelor of Education

Credential:

Bachelor Degree

Program Length:

5 Years

The Program

This program prepares students for teaching at the elementary or middle school levels and has a thoroughly articulated grounding in the Principles of Teaching and Learning and extended practica. Upon successful completion, graduates will be well-qualified beginning teachers and recommended to the Teacher Regulation Branch (TRB) at the BC Ministry of Education for 'professional certification'. This certification is required for employment in any BC public, independent, or BC Offshore school.

The program is comprised of undergraduate Education coursework and from various disciplines including the Arts, Humanities, Social Sciences, Sciences, and Human Services. Undergraduate elective coursework is predominately completed within the first two years of the program, with Education and Field Experience coursework taking place in the final three years of the program. Coursework is delivered on either the Cowichan or Nanaimo campuses. Education coursework and Field Experience does not run during the summer months.

Students completing this degree may earn Minors from other degree programs to complement their Bachelor of Education. To do so, they must meet all the requirements for the other degree's Minor, as well as the requirements for the Bachelor of Education degree. Students wishing to pursue a Minor should consult with a Faculty of Education Advisor to discuss degree completion requirements and teaching career implications of their choice of Minor.

Applicants can choose to apply for direct entry into year one of the program (Year One Entry) or upon the completion of a minimum of 48 approved Post-Secondary credits (Year Three Entry).

Access Initiative

Vancouver Island University is committed to the recruitment, retention and graduation of Aboriginal students. The University also recognizes that Aboriginal applicants have traditionally been under represented in teacher education, as articulated in the *Accord on Indigenous Education* (2010).

The Faculty of Education's Access Initiative is designed to give access to individuals who are members of groups in our society who have historically been under-represented in the teaching profession in BC. In order to achieve this objective, we encourage Aboriginal applicants to self-identify and apply under the Access Initiative housed within the Applicant Profile.
