Trades and Applied Technology Programs

Heavy Equipment Operator

Location Offered:

Nanaimo

Credential:

Certificate

Program Length:

17 Weeks

The Program

The Heavy Equipment Operator Certificate Program includes the Road Builder & Heavy Construction Foundation (4 weeks), the Heavy Equipment Operator Technician (5 weeks), and Machine Operator Training (1-8 weeks, machine dependent) for a total of 10 to 17 weeks of instruction. Students will be granted a Foundation and Technician Certificate as well as a machine(s) specialty certificate(s). Graduates will gain knowledge and skills in both a classroom and hands-on setting that will help them to be successful as they continue within the industry. They will also participate in a four week work experience segment gaining meaningful industry experience.
