## Arts, Humanities and Social Sciences Programs

# English Honours (BA)

**Location Offered:**

Nanaimo

**Credential:**

Bachelor Degree

**Program Length:**

4 Years

## The Program

An Honours in English is a program dedicated to the exploration and critical analysis of literature and language. The study of English enhances overall literacy, including written and oral communication, and information literacies. In addition to historical and genre-specific knowledge about literature and culture, students develop intellectual and practical skills, such as critical and creative thinking, and research methods. The study of English also contributes to citizenship and lifelong learning.

The main advantage of an Honours degree in English is that it will help students to see themselves as professionals in the discipline and to better prepare for graduate or professional programs. The required methods course and the research specialization involved in the capstone project anticipate graduate-level research and funding applications that many will make as they graduate from VIU. The capstone project encourages the student to spend more one-on-one with one or two faculty members. These relationships will strengthen the transition to graduate and professional situations.
