Business and Management Programs

Post-Degree Diploma in Business Studies

Location Offered:

Nanaimo

Credential:

Post-Degree Diploma

Program Length:

1 Year

The Program

* Successful completion of a PDDB in one year can be affected by course availability and the previous academic and work related experience of the individual candidate.

Vancouver Island University's Post-Degree Diploma in Business Studies (PDDB) is a 1 year post-degree program which provides an opportunity for students who already possess an undergraduate degree to hone their managerial skills to meet the challenges of the global business environment. Students may select concentrations in Accounting, Entrepreneurship, Financial Services, General Management, Human Resource Management, International Business, Management and Leadership, Marketing, and Not-for-Profit Management, or following a consultation with the PDDB academic advisor, take a personalized program of courses that suits their interests.

The program also offers an avenue for students who wish to pursue graduate studies but need to develop a stronger academic background. To ensure a higher degree of success in the MBA program, it is strongly suggested that students take courses from the five disciplines that form the MBA program. The disciplines involved are Accounting, Economics, Finance, Management and Marketing. For more details, please see the PDDB academic advisor.
